

Header Detective — Threat Analysis Report

Sender: wasptech.com | File: e24dbda2ba8ff688...

LOW

Overall Threat Score

24 / 100
LOW RISK

Component	Score	Max
Authentication	14	30
Geolocation	10	30
Language	0	30
Link / Attachment	0	30

Key Indicators

Signal	Severity	Description
auth	MEDIUM	SPF softfail: SPF evaluated to softfail
auth	MEDIUM	DKIM none
auth	MEDIUM	DMARC passed but neither SPF nor DKIM aligned
geo	MEDIUM	3/6 hops unresolved (private/loopback IPs)
language	LOW	[suspicious_action] "purchase"

Authentication Results

Protocol	Result	Explanation
SPF	SOFTFAIL	Sender IP is not authorized, but the domain is not strictly rejecting.
DKIM	NONE	No DKIM signature found. Domain does not sign emails.
DMARC	PASS	DMARC policy active (p=reject). Alignment verified.

Geolocation Analysis

Metric	Value
Resolved hops	3
Unresolved hops	3
Countries visited	Ireland

Anomalies:

- 3/6 hops unresolved (private/loopback IPs)

Language Analysis

Metric	Value
Classification	low_risk
Threat score	0.0001

Top indicators:

- [LOW] [suspicious_action] "purchase"

Extracted entities:

Persons: Ingres Database, Paul Linehan, Firebird | Orgs: IBM

Routing Analysis

Metric	Value
Total hops	6
Protocols used	ESMTP, IMAP (fetchmail-5.9.0)

Suspicious patterns:

- Multiple consecutive loopback hops (streak: 2)
- fetchmail protocol detected (local mail retrieval)
- Duplicate sender IPs: 127.0.0.1

Relay Timeline

#	From	By	IP	Proto	Location	Time
0	enterprise.wasptech.com	smtpstore.strencom.net (Post	217.75.2.106	ESMTP	Dublin, Ireland	2002-10-07T08:35:44
